Real-Time Prescription Benefit

Review Coverage Details

1. On the patient landing page, you have the ability to **View Coverage Details** under the Patient Information section.

2. Once you access the coverage details, you can view the various insurance plans available for the patient.

Select the appropriate plan from the drop-down menu and click **Save** to update the patient's coverage.

View the Real-Time Prescription Benefit

3. Select the **+ Add a Prescription** button to add medications for the patient. Then, enter the prescription details along with all required information.

4. After adding a medication to the Items to Prescribe section, you can view the real-time prescription benefits for each medication by clicking on **View Prescription Benefits**.

The screenshot displays the 'Add Prescription' workflow. At the top, the title 'Add Prescription' is followed by a breadcrumb trail: 'Choose Pharmacy > Add Medications > Review'. Below this is a search bar labeled 'Search by Name'. On the left, there are two tabs: 'Clinic Presets' (active) and 'My Favorites'. Under 'Clinic Presets', several medication options are listed in a scrollable container: 'Adderall Oral Tablet', 'adhesive liq - clinic fav supplt', 'Amoxicillin Oral Capsule 500 MG 500 MG', 'Bactrim DS Oral Tablet 800-160 MG 800-160 MG', 'Blood Collection Tube Holder Miscellaneous', and 'Capasil External Cream 2-10 % 2-10 %'. The 'Amoxicillin' and 'Bactrim' items are highlighted. To the right of the list is the 'Items to Prescribe' section, which contains two medication cards. Each card shows the medication name, a close button (X), a magnifying glass icon, and a 'View Prescription Benefits' button circled in orange. The first card is for 'Amoxicillin Oral Capsule 500 MG' with 'test' as the test name, 'Dispense: 10', and 'Refills: 1'. The second card is for 'Bactrim DS Oral Tablet 800-160 MG' with 'test' as the test name, 'Dispense: 2', and 'Refills: 2'. Both cards also have a 'MEDICATION' label. Above the 'Items to Prescribe' section is a link 'Create a Compound'. To the right of the list is a link 'Delete All Items'. At the bottom right, there are two buttons: 'CANCEL' and 'NEXT'.

Compare Pricing Details

5. Compare pricing details for your current prescription here. Use the tabs to search for a Same Drug Price Comparison or an Alternative Drug Price Comparison. Then, search by ZIP code, city, state, address, or pharmacy to find replacement options. You can also use medication and pharmacy filters to narrow down your results.

If no comparison options are found, a “No Results” message will appear in the search results.

Real Time Prescription Benefits

Displayed pricing is an estimate based on the requested quantity and days' supply. Actual cost may vary at the pharmacy. Alternative options are informational only and do not replace clinical judgment.

Replace a Medication

7. If you choose to replace the medication, click the **Replace Medication** button in the bottom-right corner.

You'll be prompted to confirm your decision to replace the current medication. Click **OK** to proceed or **Cancel** to return to the previous screen.

8. If you choose to replace the medication, you'll need to provide the new prescription details, including dosage and pharmacy information.

9. Click **Create Medication** to complete the replacement process.
